Freedom of Speech?
Not for the employees at Cabelas!

Cabela's unjustly terminated the employment of a patriot who did nothing wrong, illegal or in anyway harmful to the Cabela's company. He was not fired for work-related insubordination, absenteeism, tardiness, or anything at all that had to do with his employment at Cabela's. He was an exemplary employee! He was not fired for breaking any federal, state, or local laws. He is a model citizen! He was fired for breaking the laws of political correctness. Dan Schildhauer had the courage and the constitutionally guaranteed right to speak out against the utterly insane immigration policies in this country. He is a patriot!

After exercising his First Amendment Right to free speech via a literature distribution, Dan Schildhauer was harassed by local law enforcement and denounced as a "White supremacist" in a local paper for opposing illegal immigration. Within hours of being mislabeled by a vengeful reporter at the local paper, Cabela's suspended his employment. That suspension changed into a termination within days. This young father and happily married husband lost his employment, his health benefits, his retirement, his income and his career. He and is wife are expecting another child just months from now but they will not have the security of the health plan they once had while Mr. Schildhauer was employed at Cabela's. He lost all of this because Cabela's fired him for being an American patriot. He was fired for exercising his constitutionally guaranteed right to Free Speech! For that reason alone, we should all Boycott Cabela's! Stand up for the First Amendment! Tell Cabela's what you think about this! Contact Cabela's now and tell them you are going to boycott!
