Discounting phoney refugees, immigrants - especially sponsored immigrants whose sponsors have reneged on their agreement to support aforementioned immigrants, and Aborigines, which portion of our population comprises the largest majority of welfare recipients? Whites! An economically displaced sub-class of Whites who have been deprived of employment by downsizing, relocation of manufacturing facilities to nations with cheap labour (Globalism rears its ugly head), cheap immigrant labour and preferential hiring practices that favour minorities, especially non-white, non-citizens. Canada is one of the very few nations that does not require Citizenship as a condition for employment in the Civil Service or the Public Sector. Contrary to what the politically correct would have you believe, most White welfare recipients are not lazy bums who don't want to work. They are part of a growing sub-class of the economically displaced who have been legislated into poverty. Former office manager or busboy, they run out of EI and are forced on to Welfare.

These were good, hardworking Canadians who would like to be so again. Their search for work, however, is fruitless. There are no jobs. What few jobs there are in the Civil/Public Service sectors are reserved for non-white, non-citizen refugees and immigrants. This leads to the ever widening downward spiral of poverty, broken families, depression, alcohol and substance abuse etc. Unfortunately in some cases former housewives are turning tricks. Former CEOs are dumpster diving and illegal aliens are being clothed, set up in nice apartments, given furniture and all necessary household goods, and an income to support them until employment can be found for them, if ever. And how is all this paid for? It is paid for, in large part, out of the tax moneys previously collected from formerly productive White Canadians who have been driven into poverty. So much has been paid for this that there is nothing left to care for our own Citizens!

Take a look into your back alley. With the exception of the odd Aboriginal, who is sleeping in that cardboard box? Who are the homeless? Who is diving into your dumpster for recyclables? When you go to the bank machine or to the bus stop, who is asking you for spare change? Are any of them non-whites? NO! They are mostly White. This is the result of a Canadian Government that places the welfare of the citizens of other nations above that of their own. Is this the will of the Canadian people? Is this your will?
